

SAMPLE SIGNAGE:

Children's Center Signage:

Interesting animals pictures would get kids' attention, while a little blurb would tell about the animal. Exotic or unusual ones would be an educational opportunity. Markings on the floor with tape could illustrate the actual measurement of 6 feet. An alternative is to use more common animals (ex: two golden retrievers end-to-end).

PLEASE SOCIAL DISTANCE
Stay an alligator apart.

← 6 Feet →

American alligators are 8- 12 inches long when born, and grow 2-12 inches per year.

PLEASE SOCIAL DISTANCE
Stay a tapir apart.

← 6 Feet →

Tapirs are interesting looking creatures that resemble pigs. They can grow to just over 6 feet long Tapirs are found mostly in Southeast Asia.

Teen Central Signage:

These signs would be designed to grab the attention of teens by using images they are very familiar with-- so they will take the time to read them. All teens know LeBron James, and the sofa would be a good reminder near the seating/gaming areas.

PLEASE SOCIAL DISTANCE
Stay a wingspan apart.

← 6 Feet →

LeBron James' wingspan is actually 7' 4" wide!

PLEASE SOCIAL DISTANCE
Stay a sofa apart.
(Even if you're on the sofa!)

SAMPLE SIGNAGE CONT'D:

Teen Central Signage:

Photos of teens wearing masks--with heavy Photoshop semi-distortion filters ould look cool--and modern. Below is just an idea...

FLOOR SIGNS FOR CHILDREN'S AND TEENS

Round signs for the floor in Children's and Teens would be created that are fun and informational.

Below is a list of options for the circles.

CHILDREN's

- paw prints and guess the animal
- plants and guess the plant
- nuts and guess the tree
- leaves and guess the tree
- letters with corresponding pictures that start with the letter
- baby animals
- birds

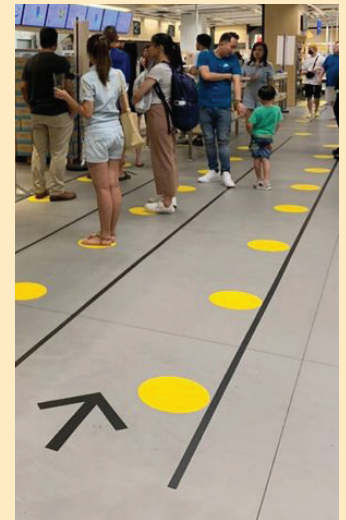

TEENS

- musicians
- social media apps
- instruments
- periodic table (groan)
- famous paintings
- famous people
- famous buildings

The Teen Center could have a contest "Find Your Spot".

When we are first open tape could be used temporarily on the floor. The teens could supply a photo or design that we produce. They would have ownership of their 'spot'.
