3.6 Evergreen Sequoia Maintenance Notes - July 21, 2021

This maintenance update will bring Sequoia up to Evergreen 3.6.4 along with some additional bug fixes. Bug fixes that were previously included in prior maintenance updates but that are not yet present in the community release will be retained; this document just lists the new fixes.

Public Catalog

- Title Search Results Display
  - This patch fixes a bug that caused titles with the word 'hidden' to not display correctly in search results.
  - https://bugs.launchpad.net/evergreen/+bug/1930933
- Bibliographic Record Display
  - This patch fixes a bug that caused code to be included with the display of regular bibliographic information in the catalog.
  - https://bugs.launchpad.net/evergreen/+bug/1923225
- Metarecord Display
  - Metarecord searches will now display grouped and ungrouped metarecord search results as expected.
  - https://bugs.launchpad.net/evergreen/+bug/1930088

Staff Catalog

- Show more details in search results
  - The option to Show More Details is again available in the search results to allow staff to easily view some item level information from this interface.
  - https://bugs.launchpad.net/evergreen/+bug/1908722
- Call Number display in search results
  - Call numbers will again display in the search results in the staff catalog.
  - https://bugs.launchpad.net/evergreen/+bug/1910808
- Preferred library holdings in search results
  - If a Preferred Library is set in the Catalog Preferences, the library's holdings will be displayed in the search results.
  - https://bugs.launchpad.net/evergreen/+bug/1913807
- Item table grid preferences
  - This patch adds a workstation setting that allows users to save grid preferences for the Item Table tag in the Angular staff client.
  - https://bugs.launchpad.net/evergreen/+bug/1907296
- View Holds Display

- The View Holds display within a bibliographic record will now allow staff users to sort holds by the Patron Barcode field.
  - https://bugs.launchpad.net/evergreen/+bug/1928684
- Hold Details Notes/Notifications
  - Notes and staff notifications can again be added to holds and managed by selecting Show Hold Details when viewing a hold in the View Holds display within a bibliographic record.
  - https://bugs.launchpad.net/evergreen/+bug/1910145

Patrons

- Patron Preferred Names Display
  - If a patron has a preferred name in their account, it will display prominently in the patron summary in the staff account. It will also be displayed before the legal name in the patron's account in the OPAC.
  - https://bugs.launchpad.net/evergreen/+bug/1924185

Administration

- Enhanced print/email action trigger enhancement
  - This patch ensures that, when upgrading, Event Environments for any customized print and email actions triggers will be created as expected.
  - https://bugs.launchpad.net/evergreen/+bug/1905091
- SMS Carriers display
  - The Active column will now display true/false values in the SMS Carriers interface found in Administration>Server Administration.
  - https://bugs.launchpad.net/evergreen/+bug/1873539
- Carousels bucket display
  - When viewing carousels in Local Administration>Carousels, the bucket column in the carousel grid is now hyperlinked and brings the user to the bucket containing the carousel titles.
  - https://bugs.launchpad.net/evergreen/+bug/1901893

Usability Enhancements

- Multi-row selection in grids
  - Users can now use Shift+click on a keyboard to select multiple rows in Angular grids.
  - https://bugs.launchpad.net/evergreen/+bug/1911238

Accessibility Improvements

- Accessible field labels in patron search and edit

- The patron search and edit interfaces in the staff client now include accessible field labels for use by screen readers.
  - https://bugs.launchpad.net/evergreen/+bug/1615800

System Enhancements

The following system improvements are included but their effect is not directly visible to users:

- Unchanged workstation settings are re-applied on every checkin
  - https://bugs.launchpad.net/evergreen/+bug/1918362
- Cleanup Perl warnings in 'make check' and logs
  - https://bugs.launchpad.net/evergreen/+bug/1895660
- need eg.orgselect.hopeless.wide_holds
  - https://bugs.launchpad.net/evergreen/+bug/1895738
