

## 3.6 Evergreen Sequoia Maintenance Notes - October 20, 2021

This maintenance update will keep Sequoia at Evergreen 3.6.4 (the current release) along with some additional bug fixes. Bug fixes that were previously included in prior maintenance updates but that are not yet present in the community release will be retained; this document just lists the new fixes.

### Staff Catalog

- New Patron View Button
  - A Patron View button has been added to the new staff catalog display of bibliographic records. You can now click Patron View (next to the Place Hold button) to open the public catalog view of the records in a new tab in your browser.
  - <https://bugs.launchpad.net/evergreen/+bug/1910452>
- Place Hold Enhancement - Patron Information
  - When placing a hold for a patron by barcode in the new staff catalog, the patron's account information will automatically populate the form after the barcode is typed, scanned, or pasted into the barcode field. You do not need to click Submit or hit the Enter key for Evergreen to populate the patron information.
