

3.6 Evergreen Sequoia Maintenance Notes - December 15, 2021

This maintenance update will keep Sequoia at Evergreen 3.6.5 (the current release), but adds some additional bugfixes. Bugfixes that were previously included in prior maintenance updates but that are not yet present in the community release will be retained; this document just lists the new fixes.

System Enhancements

- Item Bucket Deletion Enhancements
 - This patch is a system enhancement that improves the utilization of system resources when deleting a large number of items from the Item Bucket interface.
 - When deleting items in Item Buckets, end users will now see a progress bar that tracks the deletions.
