3.6 Evergreen Sequoia Maintenance Notes - February 16, 2022

This maintenance update will keep Sequoia at Evergreen 3.6.5 (the current release), but adds some additional bug fixes. Bug fixes that were previously included in prior maintenance updates but that are not yet present in the community release will be retained; this document just lists the new fixes.

IMPORTANT NOTE: This maintenance update will be applied to your Evergreen Production system on February 16, 2022. This change to the maintenance schedule is to provide timely and continuous support to libraries that are using the Overdrive Checkouts API.

OverDrive Checkouts API Enhancements

- This patch provides continued Evergreen compatibility with OverDrive changes to the OverDrive Checkouts API. Additional information about the changes to the OverDrive API can be found here.
    - https://bugs.launchpad.net/evergreen/+bug/1951021

System Enhancements

- This patch optimizes system performance when retrieving user accounts in Evergreen. Staff will not see any interface changes.
