3.6 Evergreen Sequoia Maintenance Notes - April 20, 2022

This maintenance update will keep Sequoia at Evergreen 3.6.5 (the current release), but adds some additional bug fixes. Bug fixes that were previously included in prior maintenance updates but that are not yet present in the community release will be retained; this document just lists the new fixes.

This maintenance update will be applied to your Evergreen Test system on April 20, 2022 to provide time for testing and evaluation. The patches and bug fixes contained in this update will then be applied to your Evergreen Production system during the May 2022 maintenance update.

Administration

- Carousel Administration Visibility
  - This patch allows carousel administrators to view all carousels, including those created by other users, in Administration>Local Administration>Carousels.
  - https://bugs.launchpad.net/evergreen/+bug/1939338
- Carousel display on external websites
  - Carousels can now be embedded in websites other than the Evergreen OPAC. Please contact Equinox Support for assistance with configuring this functionality.
    - https://bugs.launchpad.net/evergreen/+bug/1882982
- Display Enhancement
  - This patch fixes display issues that caused information to be hidden when viewed on small (non-mobile) screens.
